

## Automatic Cup Filling Sealing Machine

### Model: RGCM

Ramdoun HK International Group Ltd, offer The RGCM Series Automatic Filling and Sealing Machine, which our company produces, has different kinds of filling pump and it is fit for filling the products with different viscosity, from beverage to creamy products, like, Water, Milk, Cream, Fruit Juice, and sealing with appropriate compound film, and it is widely used in cosmetic, medical, chemical industry. Our company, according to the requirement of the customer, can design different molds in filling, sealing and cutting parts in order to meet the need for the customer of different shapes and different containers.

### Features:

- automatically Jelly Cup, filling, sealing, cutting to Individuals
- liquid filling
- All stainless steel.
- with photo cell and automatic drop cup sets.
- liquid filling, liquid are available
- all stainless steel 304 Grade

Model	RGCM32	RGCM32A	RGCM60A
Voltage	AC220V 50HZ 2.5KW	AC220V 50HZ 2.5KW	AC220V 50HZ 3.3KW
Output	1800CUPS/H	1800CUPS/H	3600CUPS/H
Filling accuracy	<±1.5%	<±1.5%	<±1.5%
tempt	0-400degree	0-400degree	0-400degree
Seal materials	PE PP PET /PE	PE PP PET /PE	PE PP PET /PE
Dimensions(mm)	1700x540x1400	2250x540x1400	3300x650x1600
Weight	250	400	750
